STEP 1

STEP 1:

DE: Legen Sie die Rahmen (2 Stück) mit dem längeren Auge nach unten auf den Boden und achten Sie darauf, dass die Seitenwände – beide müssen an den Rändern sein – korrekt positioniert sind. Befestigen Sie die Einsätze.

STEP 1:

PL: Umieścić stelaże (2 sztuki) na ziemi dłuższym okiem do ziemi, zwracając uwagę na boczne ścianki – obie muszą być na skraju. Zamocować wkładki

ENG: Place the frames (2 pieces) on the ground with the longer eye down, ensuring the side walls – both must be at the edges – are properly aligned. Attach the inserts.

STEP 2

STEP 2:

DE: Befestigen Sie die Magnetelemente (I1x2) am seitlichen Rahmen Cx1 – dies sind die Teile, die die Türen beim Schließen halten.

ENG: Attach the magnetic elements (I1x2) to the side frame Cx1 – these are the parts that will hold the doors when closed.

PL: Do bocznego stelaża Cx1 przymocować element z magnesem I1x2 – to część, która będzie przetrzymywać drzwi podczas zamykania.

STEP 3

STEP 3:

DE: Befestigen Sie den mittleren Rahmen an der unteren Gehäuseteil, die die Basis der Metallabdeckung für den Mülleimer bildet. Schrauben Sie alles zusammen. Das Element Ax1 ist der untere Teil der Gehäusekonstruktion

ENG: Attach the central frame to the lower part of the housing, which is the base of the metal enclosure for the trash bin. Screw everything together. The Ax1 element is the lower part of the enclosure structure

PL: Przymocować środkowy stelaż do dolnej części obudowy, która jest podstawą metalowej osłony na kosz na śmieci. Całość skrócić ze sobą. Element Ax1 jest dolną częścią konstrukcji obudowy.

STEP 4

STEP 4:

DE: Befestigen Sie die Rückwand des Gehäuses für die Müllbehälter. Schieben Sie es zwischen die Rahmen und schrauben Sie es fest.

ENG: Attach the rear part of the housing for the bins. Insert it between the frames and screw it in place.

PL: Przymocować tylną część obudowy na kosze. Wsunąć między stelaż oraz przykręcić.
